

UNITED SYSTEMS EUROPE

A MAA Community Action

Cooperation, Coordination,
Education & Harmonization
To Create & Grow A Safe,
Sustainable & Societally
Acceptable Market

FOCUS

- Manually operated, automated, and autonomous vehicle (MAA) systems in the aerial, terrestrial, nautical & space domains
- Current & future operators & operations

SCOPE THE FUTURE

Together with
national, European &
international colleagues

<https://united-systems-europe.eu/>

HIGH LEVEL GOALS

Connect

- ◆ Current & future MAA system operator communities and authorities
- ◆ National, European and international interest groups

Identify

- ◆ Existing knowledge and expertise
- ◆ Gaps in the EU regulations & implementing rules, and submit proposals for solutions
- ◆ Regulatory issues in the individual EU Member States, and submit proposals for solutions

Promote

- ◆ EU harmonization of national approaches on topics of common interest
- ◆ Awareness of MAA systems at all levels (incl. general public)
- ◆ Interaction between aviation, ground transport, shipping & space sectors already and not yet involved in MAA systems
- ◆ Awareness of national & EU best practices and experimentation

Contribute To

- ◆ Harmonization of national approaches
- ◆ Accelerating the harmonization process in the EU
- ◆ Adapting or creating new rules & regulations in the EU
- ◆ Supplying inputs to standard producing efforts
- ◆ Speeding up the implementation of solutions
- ◆ Obtaining societal acceptance of MAA systems

Mentor

- ◆ Newcomers to the MAA system ecosystem

Create

- ◆ A central database containing all MAA system-related information

Constitute

- ◆ A forum for national MAA initiatives (incl. civil drone councils)
- ◆ A federated voice of the MAA systems community at European & international levels

Participation
